European Continuing Engineering Education

Conceptualizing the Lessons Learned

SEFI and TKK Dipoli
2009

ISBN 978-2-87352-002-1

Table of Contents

Note from the Editor	7
Foreword.....	9

I Lifelong Learning and the Changing Role of Universities

HORVAT: Continuing Engineering Education as a Driving Force in University Development.....	15
KORHONEN-YRJÄNHEIKKI: Continuing Professional Development to the Core of the Education System	33
FINK: International Perspectives of Continuing Engineering Education	45
SOEIRO: Third Mission Of Universities and Engineering	53
MARKKULA: Forefront Developments—Innovation and Practice of Continuing Education	61
KELLY: Universities Changing in Response to a Volatile Environment —A Case Study from Ireland.....	75

II Learning and Teaching Concept Developments

CHRONEER, JOHANSSON AND PERSSON: Value Creation in Learning. Experiences and Outcomes from Engineering Education	91
LAPPALAINEN: Lifelong Learning Implementations in Finnish Continuing Engineering Education	101
KOLMOS, DU AND NIELSEN: New Problem Based Learning Models for Complex Knowledge	113
DE MARI: HR Development and Innovation, a Robust Marriage	125
MIETTINEN, LYYTIKÄINEN AND KOSKINEN: Managing Training Concepts for Supporting Change Management in a Multicultural Business Environment	133

III Universities Answering Working Life Challenges

KELTIKANGAS AND ALLT: Learning to Learn as a Key Competence of Engineers.....	143
NØRGAARD: Defining and Specifying Competence Needs in Tailor-Made Continuing Education	151
ROKKJÆR: Barriers for Continuing Professional Development.....	161
HAUHIO AND MAUNO: Continuing Engineering Education Faces New Challenges—Global Forest Products Technology as an Example	169

IV Technology-Enhanced Learning

KAIRAMO AND VAN PETEGEM: Lifelong Learning and Knowledge Creation with New Educational Technologies	177
DONDI AND ACETO: Innovation through Participation in Technology-Enhanced Learning.....	189
DE VRIES AND VAN DEN BOGAARD: A Contemporary Educational Model for Lifelong Learning Practices	195
PIETIKÄINEN: Modern Methods of Polymer Analysis —as Co-Operation Between University of Helsinki and Helsinki University of Technology	209

V Quality Assurance

JONES AND SCHREY-NIEMENMAA: Institutional Comparisons in Continuing Engineering Education Quality Methodologies	219
HILL AND HILL: Aligning Faculty Performance Assessment Criteria with the University's "Third Mission" Expectations	233
FREY AND KUNZLE: Quality Management in University Continuing Education Combining Accreditation, Evaluation and Quality Audit—The Swiss Example	243

Appendices

SEFI General information.....	257
SEFI Working Group on Continuing Engineering Education	259
